

CLASSKEEPER

Teaching Assistant Guide

Take attendance, record scores and keep an eye on every student - on your phone or on a computer.

What you will learn

- How to accept your teacher's invitation and open your course
- How to add a class, take attendance and enter quiz / assignment scores
- How to see each student's grade breakdown and who needs attention
- How to export a class record as a PDF, and where your settings are

Screenshots show a demo course ("Conversational English") with sample people. Your own screens will show your names and data. Numbered orange markers in the pictures match the numbered points in the text.

What a TA can do

You can

- See the course(s) you were invited to
- Add and edit classes (quizzes, assignments, exams)
- Take attendance: present, absent, leave
- Enter scores, retakes, notes and feedback
- See the roster, share the join link / QR, add students
- Open each student's grade breakdown and write an evaluation
- See who is below the passing score
- Export a class record as a PDF

Your teacher keeps

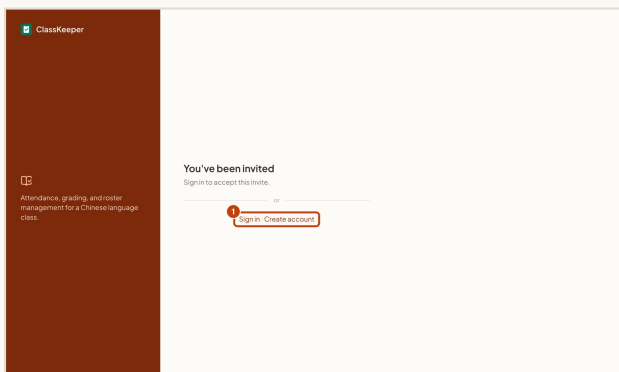

- Creating, editing and deleting the course itself
- Grading weights and the passing score
- Inviting other TAs or co-teachers
- Billing and plan settings

Part 1 - Getting started

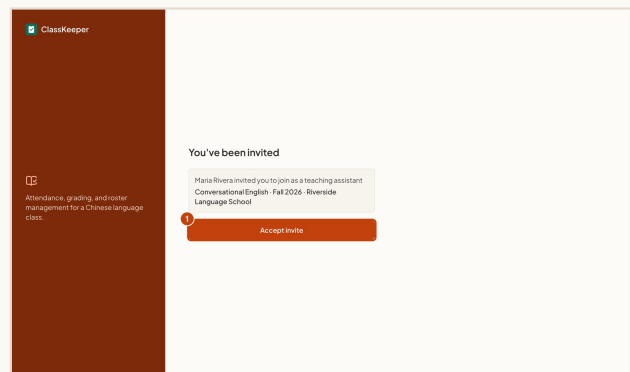

1 Accept your teacher's invitation

Your teacher sends you an invite link (or shows a QR code) from the Course page. Open it on any device.

- **1. Tap Sign in**, or **Create account** if you are new. You will come straight back to the invite afterwards.
- The invite card shows who invited you and which course it is for. Tap **Accept invite** and the course appears on your dashboard.

Opening the link when you are signed out.

Once signed in: review the invite and accept.

Tip. Have a QR code instead of a link? Sign in, then use **Accept an invite** on your dashboard to scan it with your camera.

2 Your dashboard

After signing in you land on your list of courses. Each course card gives you a quick summary.

- **1. Accept an invite** - scan a QR code to be added to another course.
- **2. Open Workspace** - go into the course to take attendance, enter scores and see students.
- **3.** The red banner counts students currently below the passing score; tap into the course to see who.

Frequent Quick Actions

Mark Attendance
Quick roll call for today

Gradebook Entry
Input quiz & midterms

Tip. Further down the dashboard, **Mark Attendance** and **Gradebook Entry** are one-tap shortcuts to the most common jobs.

3 Find your way around a course

Inside a course, the left menu (computer) or the bottom tabs (phone) switch between the course areas.

- **1. Menu:** **Courses** (back to the dashboard), **Students**, **Classes** and **Below passing**. On a phone these appear as the tabs **Home - Course - Classes - Students** along the bottom.
- **2. The Course** page summarises the number of students, classes and the passing score.
- **3. Grading weights** show how much attendance, assignments, quizzes, midterm, final and impression count towards the 100-point total. Only your teacher can change them.

The screenshot displays the ClassKeeper interface. On the left, a sidebar menu is highlighted with a red box and a red circle with the number 1. The menu items are 'Courses', 'Students', 'Classes', and 'Below passing'. The main content area is titled 'Course' and shows details for 'Conversational English', including 'Fall 2026', 'Sep 7, 2026 - Dec 18, 2026', and 'Institute: Riverside Language School'. Below this, a summary bar is highlighted with a red box and a red circle with the number 2. It contains three sections: 'STUDENTS' with a value of 8, 'CLASSES' with a value of 31, and 'PASSING SCORE' with a value of 70. At the bottom, a table titled 'Grading weights' is highlighted with a red box and a red circle with the number 3. The table lists various assessment types and their corresponding weights towards a total of 100/100.

Grading weights	100/100
Attendance	15%
Assignment	15%
Quiz	30%
Midterm	15%
Final exam	15%
Impression	10%

Part 2 - Running a class

4 See your classes

The **Classes** page lists every class day in the term. The schedule your teacher set up has already created them for you.

- **1. Add class** creates an extra class (a make-up day, a quiz day...).
- **2.** Filter the list: **All**, **Upcoming** or **Past**.
- **3.** On each card: **PDF** exports the class record, the pencil edits the class, the bin deletes it. Tap anywhere else on the card to open the class.

The screenshot displays the ClassKeeper app interface. At the top, there's a header with a back arrow, the ClassKeeper logo, and a user profile icon labeled 'A'. A sidebar on the left contains navigation options: 'Courses', 'Students', 'Classes' (highlighted), and 'Below passing'. The main content area shows details for 'ENG-201 - FALL 2026' and 'Conversational English - Section A', including a schedule of 'Mon, Wed 09:00 - 10:30' in 'Room 204' and a progress bar for '9/31 classes conducted' at '29%'. Below this, a 'Classes' section features filter tabs: 'All (31)' (selected), 'Upcoming (22)', and 'Past (9)'. A red circle with the number '1' points to a '+ Add class' button. A red circle with the number '2' points to the filter tabs. A red circle with the number '3' points to the action icons (PDF, edit, delete) on a class card. The class cards are arranged in a grid, showing dates like 'Sep 7, 2026', 'Sep 9, 2026', 'Sep 14, 2026', 'Sep 16, 2026', 'Sep 21, 2026', and 'Sep 23, 2026', each with 'Attendance' and 'Feedback' buttons and an attendance percentage (e.g., '88% attendance', '75% attendance', '100% attendance').

5 Add a class with a quiz or assignment

Use **Add class** when you need a class that is not in the regular schedule, or to attach a quiz or assignment to a class.

- **1. Pick the Date.** A **Label** (for example "Unit 3 Quiz") is optional but makes the class easy to find.
- **2. Covers:** choose what is recorded in this class - Attendance, Midterm, Final exam.
- **3. Quizzes / Assignments:** tap **Add quiz** or **Add assignment**, name it and set the **total score** (for example 20). You can add as many as you need.
- **4. Tap Save.**

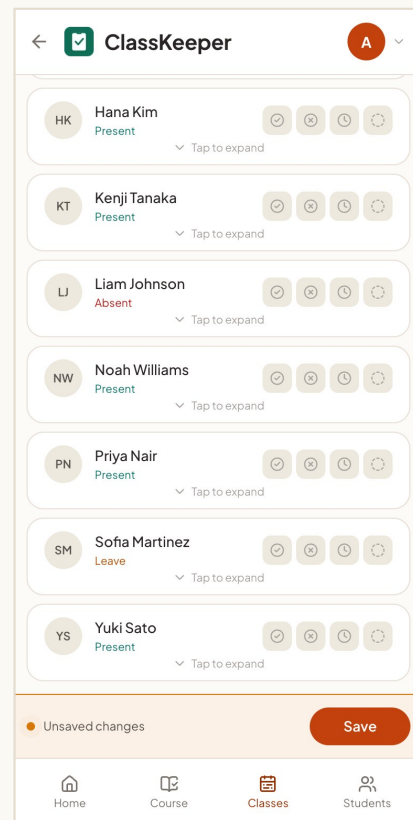

The screenshot displays the ClassKeeper app interface. On the left, a sidebar contains navigation options: Courses, Students, Classes (selected), and Below passing. The main area shows a course titled 'ENG-201 - FALL 2026 Conversational English - Section A' with a schedule of 'Mon, Wed 09:00 - 10:30' in 'Room 204'. A progress bar indicates '8/30 classes conducted'. Below this, a list of dates (Sep 7, 2026, Sep 14, 2026, Sep 21, 2026) shows '0% attendance' for each. Overlaid on the right is the 'Add a class' modal. The modal has a title bar with a close button. It contains four numbered steps: 1. Date and Label: A date picker set to '2026/10/01' and a text field with 'Unit 3 Quiz'. 2. Covers: A section with the text 'Attendance, midterm, and final toggle on or off. Add any number of quizzes or assignments below.' and three toggle buttons: 'Attendance' (selected), 'Midterm', and 'Final exam'. 3. Quizzes: A section with the text 'Label (optional)' and a text field with 'Unit 3 quiz', and a 'Quiz total score' field with a value of '20' and a dropdown arrow. Below these is a '+ Add quiz' button. 4. Assignments: A section with a '+ Add assignment' button. At the bottom of the modal are 'Cancel' and 'Save' buttons. The 'Save' button is highlighted with a red circle and the number 4.

6 Take attendance

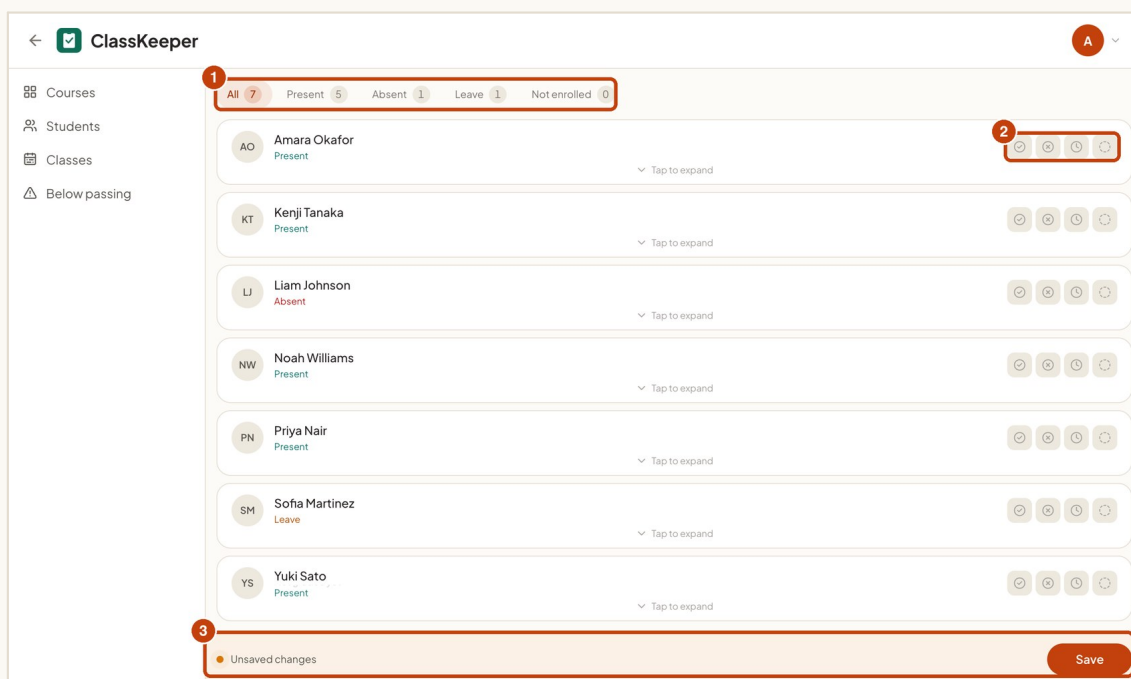

Open a class. Every enrolled student is listed with four buttons. Tap one per student. On a phone the list works the same way (right) - the Save bar stays above the bottom tabs.

- 1. The tabs at the top count students by status (**All**, **Present**, **Absent**, **Leave**, **Not enrolled**). Tap a tab to show only those students.
- 2. The four buttons, left to right: **Present** (tick), **Absent** (cross), **Leave** (clock - an excused absence) and **Not enrolled** (dotted circle). The chosen status appears in words under the student's name.
- 3. An **Unsaved changes** bar appears at the bottom. Tap **Save** when you are done - nothing is stored until you do.

Tip. Made a mistake? Just tap another button for that student, then Save.

Phone view.

7 Enter scores, notes and feedback

Tap a student's name (or **Tap to expand**) to open their details for this class.

- **1. Attendance note** - for example "10 min late".
- **2.** One score box for each quiz, assignment or exam in the class, with its maximum shown (for example **Unit 3 Quiz / 20**). A **Retake** box records a make-up score.
- **3. Feedback** - a short private comment about the student for this class.
- The average under each name updates as you type. Tap **Save** when finished.

The screenshot shows the ClassKeeper app interface. On the left is a sidebar with navigation options: Courses, Students, Classes, and Below passing. The main area is titled 'Unit 3 Quiz' for 'Oct 1, 2026'. Below the title are filters: All (7), Present (5), Absent (1), Leave (1), and Not enrolled (0). The first student entry is for 'Amara Okafor' (AO) with a '90% avg score'. This entry is highlighted with red boxes and numbers 1, 2, and 3. Box 1 is the 'ATTENDANCE NOTE' field containing 'Note (e.g. 10 min late)'. Box 2 is the 'UNIT 3 QUIZ / 20' score field containing '18', with a 'RETAKE' field next to it. Box 3 is the 'FEEDBACK' field containing 'Great participation and clear pronunciation today.'. Below this is a 'Tap name to collapse' link. The second student entry is for 'Kenji Tanaka' (KT) with a '75% avg score'. This entry has an 'ATTENDANCE NOTE' field with '10 min late' and a 'UNIT 3 QUIZ / 20' score field with '15', also with a 'RETAKE' field. At the bottom, there is an 'Unsaved changes' indicator and a 'Save' button.

8 Students and the join link

The **Students** page shows everyone in the course with their current attendance and score percentages.

- **1. Student cards:** tap a card to open that student's record. The pencil edits their details; the bin removes them.
- **2. Join link:** copy the link or tap **Show QR code** and share it with students so they can join the course themselves.
- **3. Bulk-paste names:** type or paste one student name per line and tap **Add students** to add a whole class at once.

The screenshot shows the ClassKeeper app interface. On the left is a sidebar with navigation options: Courses, Students (highlighted), Classes, and Below passing. The main area is titled 'Students' and contains a grid of student cards. Each card shows a student's initials, name, ID (if applicable), attendance percentage, and score percentage. Red boxes and numbers 1, 2, and 3 highlight specific features: 1 points to the student cards, 2 points to the 'Join link' section on the right, and 3 points to the 'Bulk-paste names' section on the right.

Initials	Name	ID	Attendance	Score
AO	Amara Okafor		29%	31%
HK	Hana Kim	ID S2026-014	26%	29%
KT	Kenji Tanaka		26%	26%
LJ	Liam Johnson		10%	1%
NW	Noah Williams		26%	34%
PN	Priya Nair		29%	22%
SM	Sofia Martinez		29%	4%
YS	Yuki Sato		29%	30%

Part 3 - Keeping track

9 Open a student's record

Tap any student on the Students page to see everything about them in one place.

- **1. Grade breakdown:** the total out of 100 and how many points the student has earned in each category. A red **Below passing** badge shows when the total is under the course's passing score.
- **2. Evaluation:** write a short narrative and an **Impression score** for the student, then tap **Save**. The student can read the narrative on their own page.
- **3. Attendance history** (and, below it, quiz and assignment scores) for every class so far.

Save

3 Attendance history

Sep 7	Present
Sep 9	Absent
Sep 14	Absent
Sep 16	Present
Sep 21	Absent
Sep 23	Present

Quizzes

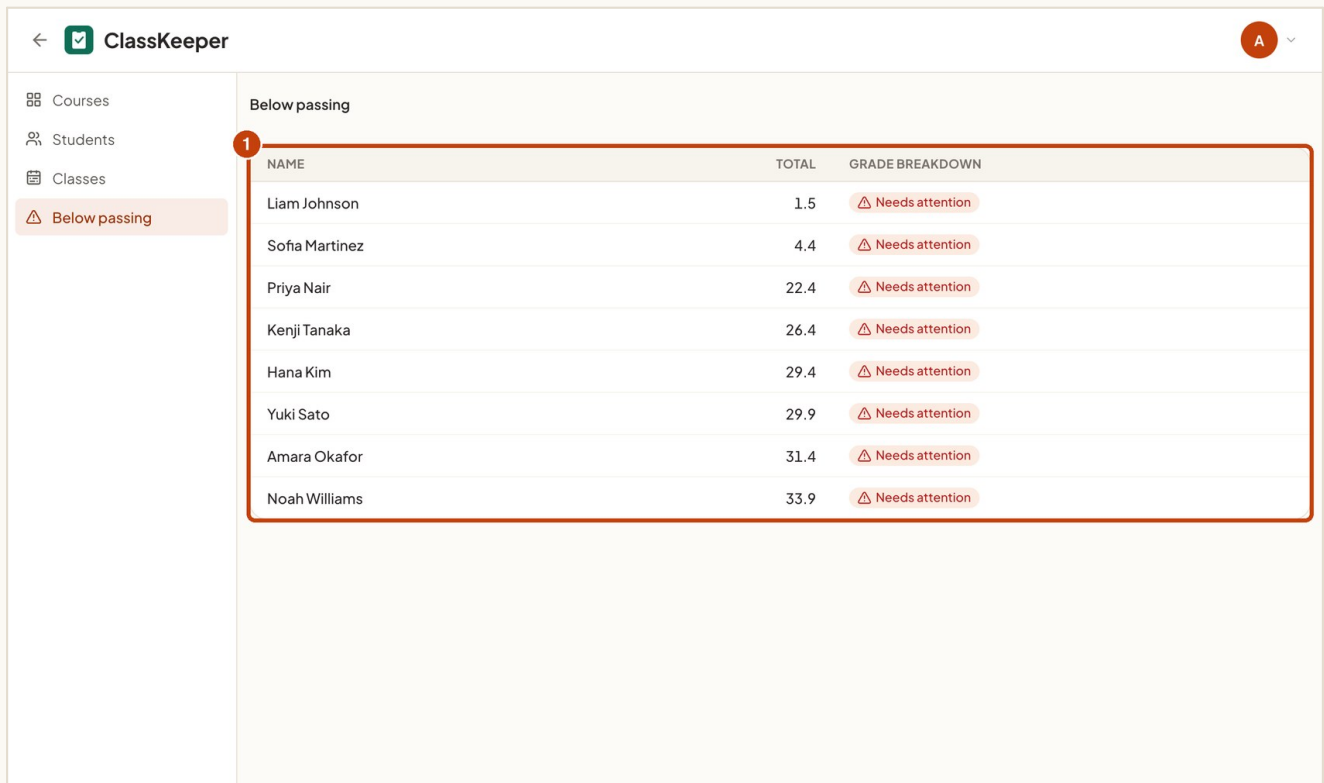

Unit 3 quiz	-/20
Oct 1	

Note. The total is calculated against the whole term, so early in the term most students will show **Below passing** simply because most quizzes and exams have not happened yet. It rises as more scores are entered.

10 Who needs attention?

The **Below passing** page lists every student who is currently under the passing score, lowest first.

- 1. Use it as a to-do list: check on the students at the top first. Tap a name to open the full record.

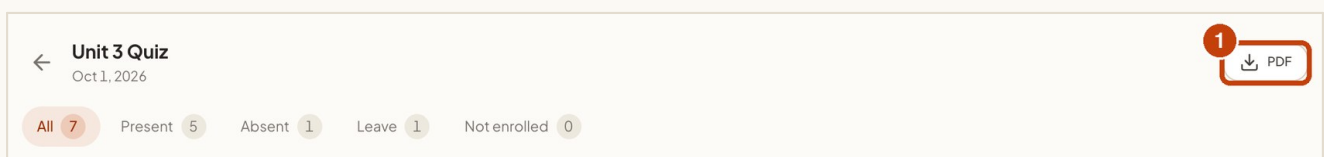

NAME	TOTAL	GRADE BREAKDOWN
Liam Johnson	1.5	Needs attention
Sofia Martinez	4.4	Needs attention
Priya Nair	22.4	Needs attention
Kenji Tanaka	26.4	Needs attention
Hana Kim	29.4	Needs attention
Yuki Sato	29.9	Needs attention
Amara Okafor	31.4	Needs attention
Noah Williams	33.9	Needs attention

11 Export a class record as a PDF

Every class can be exported as a printable attendance and score sheet - handy for school records.

- 1. Inside a class, tap **PDF** at the top right. You can also use the **PDF** button on the class card in the Classes list.

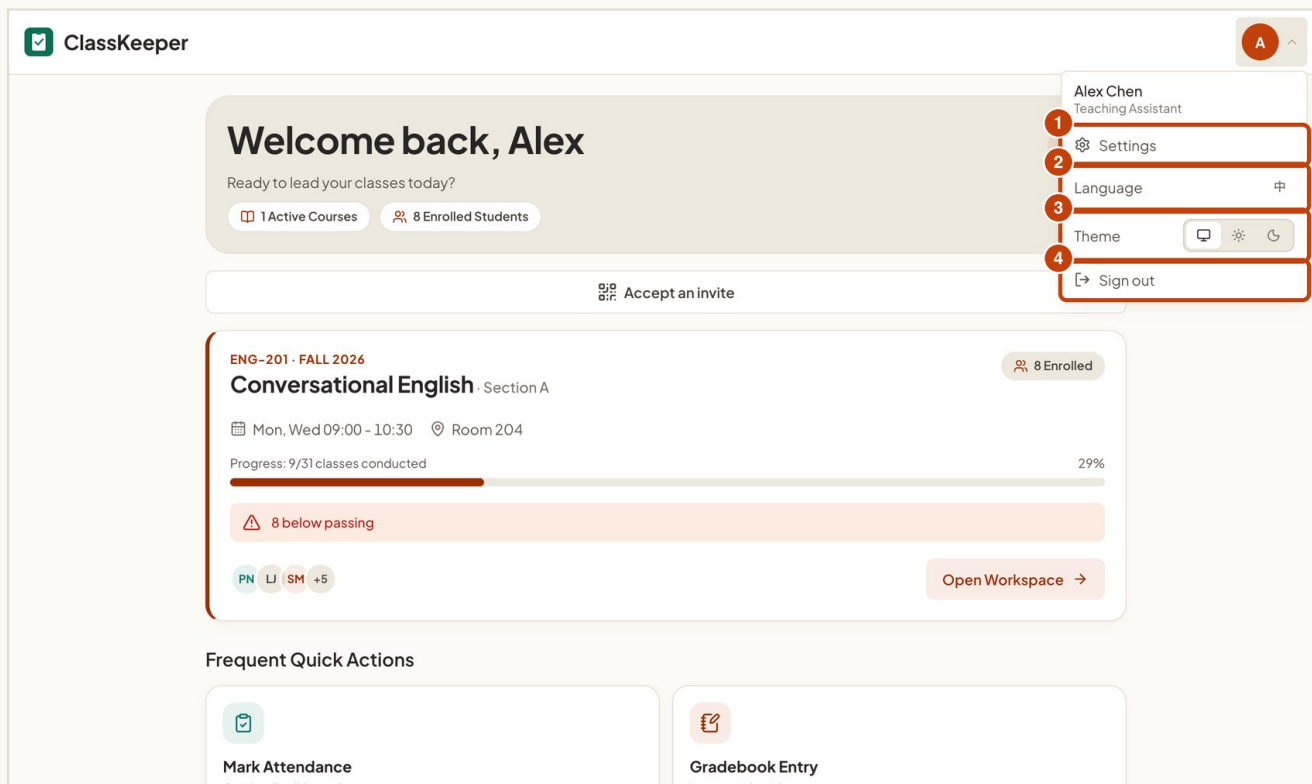

Unit 3 Quiz				
Oct 1, 2026				
All	Present	Absent	Leave	Not enrolled
7	5	1	1	0

12 Settings, language and sign-out

Tap your round profile picture at the top right (on a phone it is on the dashboard) to open the menu.

- **1. Settings** - your account details.
- **2. Language** - ClassKeeper is available in English, Traditional Chinese, Indonesian, Filipino and Vietnamese.
- **3. Theme** - follow your device, or choose light or dark.
- **4. Sign out.**

Tip. Install ClassKeeper on your phone's home screen so it opens like an app: open **/install** in your browser and follow the steps for iPhone (Safari) or Android (Chrome).

Quick answers

I accepted the invite but see no course.

Check you are signed in with the same account you accepted the invite with. If it still does not appear, ask your teacher to send a fresh invite link.

The invite says it has expired or was already used.

Invite links are single-use. Ask your teacher to create a new one from the Course page.

A student is missing from the list.

Share the join link or QR code from the Students page, or add their name with Bulk-paste names.

I changed attendance but the numbers did not move.

Tap Save on the bar at the bottom of the class - changes are only stored when you do.

I cannot edit the grading weights or delete the course.

Those are teacher-only. Ask the course teacher to make the change.
